

# FULL-SERVICE CHASSIS SHOP

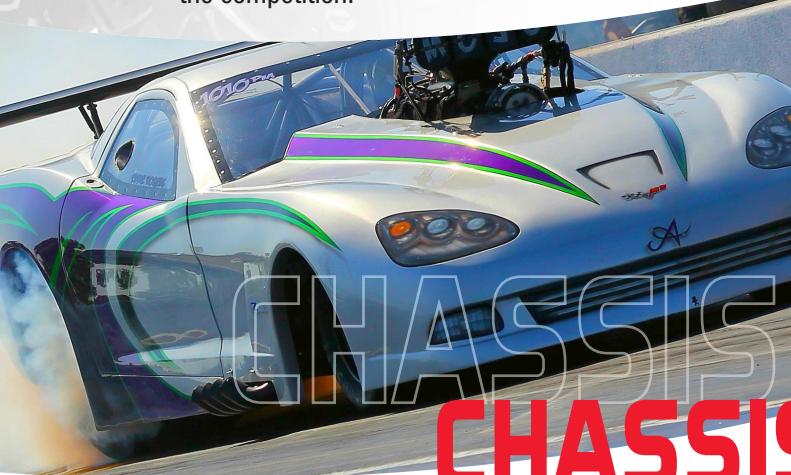

**Committed to the Sport of Drag Racing!**

**EXPERIENCED PROFESSIONALS** - Owners **Chris Duncan and Amanda Hoover** bring their competitive spirit, hands-on ownership, and love of the sport into everything they do. Chris and Amanda are experienced, race-winning pros who know how to **BUILD, TUNE, RACE and WIN**.

## CUSTOM CHASSIS FABRICATION

Our **number one goal** at Chris Duncan Race Cars is to provide chassis fabrication and supply with a quality of service that racers expect. We use state-of-the-art fabrication equipment with qualified craftsmen to get your project completed right and on-time.

Because the owners **Chris, Amanda**, and their team, work on your car they can ensure the project is delivered on time and on budget in a much faster turnaround time than other, larger shops. CDRC can turn around a complete car build much faster than the competition.

## CHASSIS PACKAGES

**CDRC Basic Chassis Roller Package** features a bracket and quicker doorslammer basic roller with a 4130 moly 25.1E Advance ET Chassis with a fully tig welded w/ funny car cage and choice of fiberglass or carbon fiber bodies.

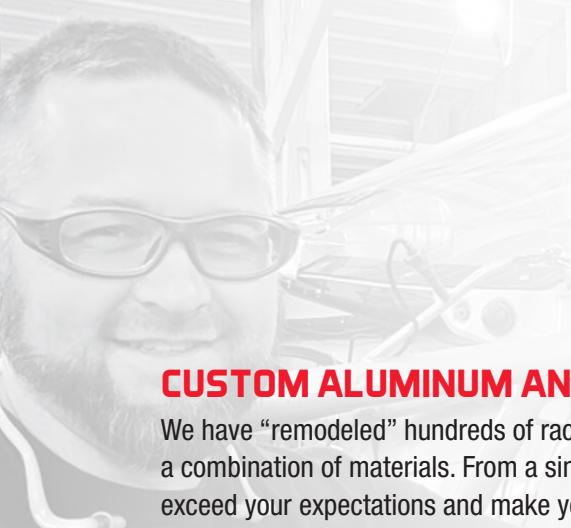

**CDRC Top Sportsman Chassis Roller Package** features a CDRC 4130 Moly 25.1E Advance ET Chassis with CDRC Fabricated 9" 4130 Moly Housing with specialized chassis design for your horsepower combination.

**CDRC Pro/Modified Chassis Roller Package** features a 4130 Moly Chassis 25.1E with Double Frame Rail design and advance ET chassis.

# FULL-SERVICE CHASSIS SHOP

## CUSTOM ALUMINUM AND TINWORK

We have "remodeled" hundreds of race cars over the years with great looking aluminum, carbon fiber, or a combination of materials. From a single panel replacement to a full interior, get quality work that will exceed your expectations and make you a lifelong CDRC customer.

## FIREWALLS

We feature firewall designs that increase the strength and safety of your overall race car by combining frame rails, roll cage and engine mid-plate into a rigid structure. Let us show you how our firewall designs can be a big benefit to your new or updated chassis needs.

## CHASSIS UPGRADES and CHASSIS REPAIR

From checking proper alignments to complete replacement of a front or back-half, CDRC can perform any chassis repair or updates to your existing chassis.
